

a) What is your biggest takeaway message from each of the tasks for this assignment? b) Did both of you put your best effort into this assignment? If not, what obstacle got in your way and how can you avoid it in future assignments? c) (Each partner individually) Name one contribution your partner made to this assignment that you are proud of.

a) Our biggest takeaway was learning how you can do the same task with shortcuts with Javascript. While the assignment was still challenging, using d3 was a lot more intuitive to make visualizations versus doing it without as we did in the last homework. We also took away that there are a lot of shortcuts that come with using libraries that are easy to take for granted when we are not using them.

b) Yes, both of us put our best efforts into this assignment.

c) Tara: Lauren made the bar plot interactive and allowed the user to plot points on the scatterplot. Lauren: Tara created our bar plot and worked on the axes in the scatterplot, making sure the points the user clicked on were accurate and working.
